

Kitchen Leash®

Manufactured By APC GROUP, INC.

The Kitchen Leash is designed specifically for areas subjected to steam and/or moisture and rated 240°F. The Kitchen Leash provides watertight retractable power which can be made available to kitchens and food prep areas without concern of hazardous power cords on the floor. Our kitchen cord reels are ideal for commercial kitchens and restaurants, and are available with black or stainless-steel finish.

In food preparation areas where cleanliness and safety are a requirement; the Kitchen Leash is a must. The Kitchen Leash allows food preparation and cleanup crews to avoid power cables typically found on the floor. When mounted overhead the Kitchen Leash avoids water, steam, grease and food prep waste contamination.

BENEFITS OF THE KITCHEN LEASH

USED IN MANY DIFFERENT ENVIRONMENTS

- Reduces "trip and fall claims"
- Increases employee productivity
- Provides for a safe working environment
- Simplifies food prep area cleanup
- Provides electrical power to where it's needed
- Retracts out of the way when not in use
- can be ceiling, wall, or cart-mounted
